"The 'stars and stripes' are set at half-mast this day over our roof on account of the intelligence received of the death of Gen. Harrison.

CHANGES OF CLIMATE AND EVENTS.

It is evident that at some remote period of time a great change took place in the climate of various Vegetation, the growth of tropical chinates, is found in high Northern lati-We believe this wark, like the system of which tudes embedded in strata of earth in such positions as to leave to doubt that it was at one time the

The fossil remains of the Crocodile, and of the Mammeth, are found in every section of our globe. In the frozen regions of Siberia, the bones of huge animals are found so abundantly that vessels are we are but slenderly qualified to judge; but all are | cargoes; and those bones have become quite an ar-

estimation from the acts of its ignorant disciof the large rivers in the Northern part of Siberis. carcase became visible, until at length it was al cians,' and commenced the sweeping massacre of the ailing with red pepper and lobelia. This is long time, and the Juhats cut off the flesh and fad 1306, and gathered up a large quantity of the hair and bristles, and as much of the skin as required ten men to lift it. This animal's carcase must have been reposing in its bed ever since the great Deluge, when the frost crystalized a portion of the

many of them in a stiff blue clay, others in the Car-It is pretty clear that if these immensely large animals said died in this climate, as it now is, purrefaction and decomposition would have destroyed

In some sections of the South American continent naimal flesh will not putrefy or decompose be the contrary, it becomes day and hard. Heat and moisture must both be present at the same time to roduce animal or vegetable putrefaction, or de-

An animal frame thrown by the waters of the universal delage into the Acctic regions where perpetual frost has ever since reigned, would not have undergone any change, and melted ice would leave it in the state in which the frost overtook it.

That these Monster Beasts must have all been swept from among the living by the Deluge, seemprecipitated from the body of the vasty deep, seems evident from the state of the soil in which the bones are found imbedded. Many scientific men are of and such an event may have been produced by the rent Deluge, as both the Arctic and Antarctic swell the mighty flood.

It is easy to conceive of the effect of the melting of the ice of both poles at the same time, and of STATISTICS OF RELIGIOUS DENOMINATIONS IN
THE UNITED STATES.

the vast increase of the mighty waters, and of their influence on the motion of the earth.

The whole face of our earth bears the marks of the currents of the great deluge, and every thing we meet with in the earth's strata confirms the accuracy of the account given of that memorable

The motion of our planet would be affected by a universal flood of waters; and also by a universal conflagration; the former event is most positively asserted in the sacred volume as having already

aken place, and the latter is as sure to happen.

When this terrestrial Globe shall have kindled by its mighty blaze and become melted with fervent eat, then will its atmosphere be expanded, and the Earth be thereby removed from its present orbit, and passing with inconceivable velocity toward the solar orb of our system, until it shall have reached sufficiently near that body to be repulsed by it. motion, will be thrown into vast space with a force 5,745 so great as to give length and eccentricity to its orbit could to the distance of its present position from the Sun, until it shall have spent the force of its repulsion, and again return with a blaze of 19,000 tight and fire in its trait, which shall continue until the number of its revolutions shall be sufficiently great to affird it time to again acquire density, and again to be clothed with matter, and again to resume its place, and move in its former orbit, as a new creation.

Such events are not inconsistent with the declarations of the sucred volume. Astronomers agree in opinion that several stars have disappseared from our system within the last two hundred years, and one of them asserts that one of the stars was seen one of them asserts that one of the stars was seen one of them asserts that one of the stars was seen or such as the control of the stars was seen one of them asserts that one of the stars was seen or such that the control of the stars was seen one of them asserts that one of the stars was seen of the sacre of the Matter of them asserts that one of the stars was seen or such that the force of the Matter of th

Catholics, Episcopalians, Friends, Jews and New one of them asserts that one of the stars was seen Church men are given, while the others embrace to be in a state of combustion for more than sixeen months, and finally disappeared.

The comets which occasionally become visible

The whole number of persons attached to the leading denominations is estimated as follows: Bapperiod include our earth among their number; and tists (of all sorts) 4,300,000; Methodists (do) although their revolutions consume what seems to 3,000,000; Presbyterians (do.) 2,175,000; Congre- us to be uges of time, still these revolutions had a gationalists 1,490,000; Lotherans 540,000; Dutch | beginning; but the end is not within the compass of a finite mind. Whether we attempt to discern Reformed 459,000; Christians 300,000; Univerthe most minute of nature's works, or to contem place the most majestic, both are alike beyond our comprehension; and the more we investigate, the Columbia River. —The Bangor Whig publishes more we must be convinced of sur ignorance, and the following extract from a letter received by a the greater should be our humility, and the more

REMOVAL OF RED RIVER RAFT .- The Alexanwere here in June last, on their way to Columbia made a contract with government, and for the river, two months behind their time. The Vissum of sixty-four thousand dollars, have contracted rennes and Porpoise arrived at the Columbia river in May last. Capt. Wilkes gives a highly flattering description of the country—he will make a thorough survey of it before ne suits it. I hope Captain Wilkes's efficial report will open the eyes of Uocle Sam to his interest on our Norths-West Coast. Great Britain has held, and still holds, through the agency of the Hudson's Bay Company, through the agency of the Hudson's Bay Company, the same of the country is the same of such magnitude. Mr. Williamson is all the country in the same of such magnitude. Mr. Williamson is all the country in the space of five years. There can be but little doubt now that this work will be speedily accompany to remove the rait and keep the channel open for the space of five years. There can be but little doubt now that this work will be speedily accomplished; for the gentlemen engaged in it are thoroughly acquainted with the country, are acclimated to remove the rait and keep the channel open for the space of five years. There can be but little doubt now that this work will be speedily accompany to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. There can be but little to the space of five years. The space of five years through the agency of the Hudson's Bay Company, exclusive jurisdiction of that beautiful country, their treaty of neutrality with our Government to the having it opened by the first of January next.

"Several Americans of enterprise have attempted | RISE AND PROGRESS .- Shadrick Burleson, beta settlement in the country, but they have been ter known hereabouts as Shad. Burleson, is now "check-mated by oppressive monopoly, until they were fairly starved out, and obliged to return. The charter of the H. B. Co. has recently been renewed, with an additional grant of two millions this place, about that time. By this, together with pounds sterling, intended expressly for the settle-irregular habits, and miscalculations in business, And they are now he became embarrassed, took the Sabine Slideting temporary buildings on every valuable lot ente ed the Texan army-became Colonel, and of land and sulf-site in the country. Capt. Wilkes now Vice President by over 2,000 majority! Shad be directed, subject to the inspection and approval of such says the harbor at Pagot Sound is the finest he was a "go-a-head," and a right sort of a Texan person as the Esgineer may select on or before the 10th ever anchored in, in any part of the world. We civiren we should think. Sam Heuston, the hero

"The Rev. I. Covert's mixture, also, used so extensive by for this fleerion by cherymen, belongs to the same cases of expeciorsats, being one of these lucky combinations of medical agents which, while it promotes expectoration does not impair the tone of the stamen. Of this medicine we feel at liberty to speak since its composition is not liable from the profession, and we hope the proprietors will soon see fit to give it to the rubble. We, therefore, venture to recommend it, having amployed it is our case and in the case of many others, with decided benefit.

ASTONISHING CURES per-ormed by DR. J. FRANCIS, Ocules, No. 10 Barelay street, within two doors of the Astor House. CERTIFICATES:

Ion was made a period cure in one month.

Nisa, Cox, 177 Delancy st.
I certify to the above being true statements in every in ticular. G Benkover, Pastor of Stantons at Church. I was almost blind for twenty years with a cataract in which eye, which are now perfectly removed by Dr. Francis's astonishing preparation for that disease.

Hister Jounston, 198 South at.

This celebrated preparation for diseases of the Eye has made perfect cures when hope had field, and even in cases eleved to be incurable. It is a perfect cure for all influentiony diseases of the Eye, weakness of sight, and assumed many wonderful cures in annurous and estate. It is not prepared or sold by any in America but by J. Francis. Numerous certificates can be seen at the effice.

NEAN DENNAR, Paster of the McDougal at, Church.

BY SPECIAL APPOINTMENT,

JOSEPH GILLOTT,

PEN MANUFACTURER TO THE QUEEN.

CAUTION.—The high character of these Pens has induced the attempt, on the part of several disreputable makers, to prictice a fraud, not only spon Mr. Gillott, but dso upon the public. An inferior article bearing the misselled mane, thus, Gillot, omitting the final T, is now in he market. It can readily be detected by its unfinished operarance, and the very common style in which it is put up.

Observe the genuine Pens are all marked in full—"Joseph Gillott's Patent," or, "Joseph Gillott, warranted;" and that each gross bears a fac simile of his signature thus
